HOW TO PLAY

Two teams · a board of hidden survey answers · 3 wrong answers and the other team can steal

GETTING STARTED

- Unzip the download, open the folder and double-click index.html. It opens in your web browser (Chrome or Edge work best). No internet is needed. Keep all files together.
- For a class, connect your computer to a projector or TV and press the full-screen button (or the F key).
- Make two teams. Type the team names on the start screen. Choose a level (A1, A2, B1 or All), a topic pack (or Shuffle all) and the number of rounds. Press Play.

PLAYING A ROUND

- Read the question aloud, or press the speaker button. Example: Name something you take to the beach.
- The playing team is lit up on the scoreboard (Team 1 starts round 1, then the teams take turns). Use Switch team to change it, for example after a quick 'hands up' face-off.
- Players say an answer. If it is on the board, tap that tile (or press its number 1–8). It flips over and the points go into ROUND POINTS.
- If the answer is not on the board, press Wrong (X key). A big red X and a buzzer show the mistake.
- After 3 wrong answers it is a STEAL: the other team talks together and gives one answer. If it is on the board, tap it - they steal all the round points. If not, press Wrong - the playing team keeps the points.
- If the playing team finds every answer, they win the round points automatically.
- You can always give the points yourself with the Points buttons (A or B key). After the round, tap the hidden tiles or Show all to see the other answers (no extra points). Press Next round (Space).

SPEED ROUND (BONUS)

- One player answers 5 quick questions before the clock runs out (20–60 seconds). The teacher or a helper types each answer, or just presses Next.
- Press Reveal the points. The app finds matching answers and adds the points. Tap a different answer if the player's words mean the same, or the red X for 0.
- 100 points or more wins the bonus! Press Add to team to put the total on the scoreboard.

MAKE YOUR OWN ROUNDS

- Press Make your own rounds. Type a question, 2–8 answers and their points, choose a level and press Save. You can also copy a ready-made round and change it.
- Your rounds are saved in this browser and appear in the My Rounds pack. Press Export to save them as a file (keep a copy or share with other teachers) and Import to load a file.

Teacher keys: 1–8 show answer · X wrong · A / B give points · S switch team
Space next round · R read question · M sound on/off · F full screen

TEACHING TIPS

Make every round a speaking activity

BEFORE THE GAME

- Pre-teach 5–6 key words for the topic. Lower levels: show pictures or draw on the board.
- Teach the useful phrases: 'I think...', 'How about...?', 'Is it...?', 'Let's say...', 'Good idea!'.
- Mix ages and levels in each team. Give each player a number so everybody gets a turn to answer.

DURING THE GAME

- Accept answers with the same meaning (sun cream = sunscreen, rubbish = trash). Accept good spelling and grammar variations too - the points are just for fun.
- Ask for a full sentence for bonus praise: 'Something you take to the beach is a towel.'
- For older learners, ask follow-up questions: 'Why do you think this is number one?', 'What would you add?'
- Grammar Fun rounds: accept any correct example (any past tense verb, any colour) - the board shows the most common ones.

AFTER THE GAME

- Use the printable answer sheets in this guide for a quick review or a writing task: 'Write 5 sentences using answers from the board.'
- Ask students to write a survey question, ask the class, count the answers and make their own round in the editor.
- Use the scorecards on the next pages if you play without a screen: the teacher reads from the answer sheets.

SUGGESTED LESSON PLAN (40 MINUTES)

- 5 min warm-up and key words · 20 min game (5–6 rounds) · 5 min Speed Round · 10 min review or survey writing.
